

Claim, Evidence, Reasoning:

Look at the pictures below and think about what you have learned regarding cellular respiration and photosynthesis.

Observations:

1. .
2. .
3. .
4. .
5. .
6. .
7. .
8. .
9. .
10. .

Claim: (choose 1):

- a. Photosynthesis and cellular respiration are mirror, or reverse, processes of one another.
- b. Photosynthesis and cellular respiration are not mirror, or reverse, processes of one another.

Evidence: (use information from your observations about cellular respiration and photosynthesis that supports your claim).

- 1.
- 2.
- 3.
- 4.
- 5.

Reasoning: (explain how each of your pieces of evidence supports your claim)

- 1.
- 2.
- 3.
- 4.
- 5.

Conclusion: (write a 3 to 5 sentence paragraph defending your claim.)
